FAMILY DYING.

A great study in the average household at present time is how to economize! Wages have been cut down or incomes reduced in some manner, and it is necessary to make the clothes go further if we are to keep up appearances. Fortunately it often happens that by looking around the house any number of things can be found that have been laid aside and cast off, that can be made as good as new by being recolored, or that can at least be made over for younger members of the family. Dresses, Gowns, Wrappers, Shawls, Hoods, Scarves, Ribbons, Feathers, etc., can be colored over any color desired, by the use of the popular DIAMOND DYE.

How to Buy Dyes.

Fortunately, at most every drug-gist and mercantile store, the DIAMOND DYES, and those only, are to be had. It is necessary, however, for the consumer to be on the look-out for some of the cheap, cheaply made, cheaply colored dyes, which are sold in bulk and in packages, which they try to sell, but do not buy. Do not be hurried to take these. Insist upon HAVING THE DIAMOND DYES, and find some live dealer who keeps a supply. Then there are some unscrupulous dealers who will try to foist cheap imitations upon you. Insist upon DIAMOND DYES, and make more profit on them. Avoid cheap cheap but the DIAMOND DYES. These only represent the latest scientific achievements in this line, and these are the only ones so placed that any one can use them with success.

An improved bath follows the sitting down upon a rack. If a neat and drink that is depriving many a family of food. Widows and widowers often mend their conditions by re-pairing. A lady who had begged highly at a dinner party of her little darling addressed him thus: "Charlie, my dear, will you have some beans?" "No," was the ill-mannered reply of the petite little child. "No," explained the astonished mother, "no what?" "No beans."

Millions of packages of Diamond Dyes have been sold without a single complaint. Every where they are the favorite Dyes.

KIDNEY-WORT

THE BEST REMEDY

Kidney Diseases, LIVER COMPLAINTS, CONSTIPATION, PILES, RHEUMATISM, DYSPEPSIA AND DEBILITY.

The Kidneys, The Liver, AND THE BOWELS,

THE BOWELS,

Stimulating them to healthy, vigorous action. It restores their ability to throw off all impurities; it regulates the flow of bile; it cures the worst cases of Constipation and Piles and all forms of Kidney Complaints, such as difficult and painful urination, weakness and incapacity of holding urine, brick-dust deposit, windiness or milky discharges, gravel and Diabetes. For female weaknesses it is the great remedy, and it speedily eliminates all Menstrual Troubles from the system. Put up in *Dry, Keptable Form*, in tin cans, one package of which makes six quarts of medicine. Also in *Liquid Form*, very convenient for the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

PRICE.

Kidney-Wort, Dry, in Tin Cans, \$1.00
Kidney-Wort, Liquid, in Bottles, 75c
The Dry Form is the most economical. The Liquid the most convenient. It is equally efficacious either way.

Preparing the Dyes for Use.

Having procured the color of Dye, you will use you will use a large bowl or for ten days, more than it would be for an efficient boiler water to dis- before using it. Before using it is all ways well to strain through a cloth, that there may be no undissolved particles get into the dye bath. The color should be the same as the color of the black and some other of the dark colors for which the special directions on the package.

For those Dyes for which vinegar is directed to be used, be sure that it is not too strong, as it is important in order to enable the Dyes to go on the goods readily and to set the color.

Coloring Yarns, Carpet Rags, etc.

There are probably more dyes used for these purposes than for any other, and such has been the case always. In many sections of the country every third household spins yarn, and makes carpets or rags. We wish to remind all such that the most disagreeable part of the work has been completely revolutionized by the introduction of the wonderful DIAMOND DYES; by their use the coloring can be done in one-fourth the time and at less expense than with the old-fashioned eye-stuffs, while the colors are more brilliant and durable. If your materials are cotton, remember to get the special cotton colors.

Coloring Cotton.

The Diamond Dyes of most colors work well on cotton, but for a green dye, the Food Yellow, Green, Carthagen, or Sennel, it is necessary to have a dyestuff prepared, to these dyes for Sile and Wool do not color cotton well.

For Brown on Cotton we recommend Refined Gum Carthagen, sold in packages, with full directions. It makes the best and most durable Brown known on Cotton.

If you wish to know just what colors you can get on Cotton from the Diamond Dyes ask the dealer to show you the Sample Book of Colors on Cotton.

A bad marriage is like an electric machine: It makes you dance, but you can't let go.

A miss was asked by her parents which she would prefer for a present, a pair of roller skates or "The Youth's Companion." "I will take the skates," she said. "I can get a Companion at the rink."

A broom, country girl rode into Carlisle, Pa. the other day, wearing a jaunty-looking hat of entirely domestic manufacture. It was made wholly of oat straw and corn stalks that grew upon her father's farm, and was trimmed with shibbets' feathers dyed with Diamond Dyes. She created a sensation.

The Scarlet, Cardinal Red, Old Gold, Navy Blue, Seal Brown Diamond Dyes give perfect results. Any fashionable color, 10 cents.

KIDNEY DISEASES.

The symptoms of kidney diseases are many and varied. Some of the following are usually present: Pain in the small of the back, (usually in adult), dragging nature, but sometimes acute and severe; disordered state of the urine, sometimes pale in color and very copious, at other times high colored and scanty, often with brick-colored sediment or with settling of mucus, offensive and foul smelling; a general feeling of lassitude and weakness, and inability to perform usual amount of work, either mental or physical. These symptoms are often complicated with others, caused by derangement of other organs, which also are readily symptoms of disease primarily located in the kidneys. No remedy ever equalled

KIDNEY-WORT.

In banishing these symptoms and in curing the disease. Do not delay in getting it, for late for it not remedied it will ere long be too late for it. *Atchey, Fort,* and you will soon find the refreshing in health and strength. Thousands have been cured, and you may be. Try to find fully and at once.

ALEXANDER AVERY, Akron, N. Y., says:

"I was obliged to get up from three to five times every night. Rony urine with a heavy sediment, constant headache with pain in the back and kidneys. Three years ago I took my first package of Kidney-Wort from the first dose my health improved. I took some three packages and have been a well man since."

W. H. HOPE, Mendonville, Pa., says:

"I had pain in the small of my back. Urine high colored with sediment, my appetite becoming putrid from the cause. I then obtained for one year. Two boxes of Kidney-Wort. I am perfectly cured and now at the age of 78 I am proud of my health when I love to Kidney-Wort."

THOMAS GREEN, Mayville, N. Y., says:

"I had to get up many times at night, and my urine was high colored with a brick dust deposit. One box of your Kidney-Wort cured me."

S. F. FORT, Cherry Creek, N. Y., says:

"For four years I hardly know what it was to have a good night's rest. The pain in my back and kidneys was so intense. My urine was thick and high colored like brick-dust. After the first dose of Kidney-Wort I went to bed and slept all night. I have taken four bottles and consider myself cured."

Telephonic is feminine - it talks back.

Starting down on a horse's nest is astounding, but not astonishing.

The man with rheumatism is every inch a king.

A man may be so wrapped up in science that he forgets all things else, but heaven's fools with electricity and gunpowder never than off.

"What is the safest way to transfer bonds? asks a suburban correspondent. Have someone else to do it, and be in the next county when it is done."

Morning Gowns, Dresses, etc.

Since the DIAMOND DRESS has been offered to the public, it has become the favorite of those who desire to wear the latest and most elegant styles. It is made of the finest materials, and is so constructed that it will wear for years without losing its beauty or its grace. The price is such that few will be deterred from purchasing it. Now, at a trifling expense it can be done in any house, and any one can make many dresses every year by the use of a few yards of fabric.

dyed without tripping. If dresses are to be made of any material, it is best to purchase in order that they can be easily handled in the dye-bath.

Coloring over Other Colors.

In coloring over other colors it is usually desirable especially if much change is to be made, to discharge as much as possible of the old color. This is best effected by boiling in strong soap-suds and rinsing, and repeating this as long as any color comes out into the water. All colors can be dyed or made a darker shade of the same color. In this way the Diamond Dyes are very useful for reweaving faded or dingy colors.

SCARLET, CARRIAGE RED, CRIMSON, MAROON.—All kinds of pink or red can be made brighter and deeper with these dyes. They will color over yellow or orange, making various shades of Scarlet, over Blues, Greens, and Whites, making various shades of Purple, of Blue, of Green, of Maroon, or Dark Blue.

BROWN, BROWN, SEAL BROWN.—These will color over all colors except black, making various shades of Brown. Browns of shades take the best. Brown, over Green they make a Bronze; over Red a Garnet; over Purple a Maroon; or Dark Blue.

PURPLE, VIOLET.—Will color over Reds and Blues, and all light colors, making various shades of Purple or Violet. Violet colors over Black to Seal Brown.

YELLOW, ORANGE, OLD GOLD.—These will only make good colors on white or very light colored goods. They make all other colors of a yellowish shade.

NAVY, MAROON, PINK, NAVY BLUE, DARK ROSE, PINK GREEN.—These will color over all light colors, making various shades of the color named.

Little Jack.—“My mamma’s new fan is hand-painted. Little Jack—“Pooh! Who cares? Our whole dance is!”

“What’s the reason you didn’t speak to James when he passed in just now?” “He passed me the other day.” “What did he say to you?” “He called me an old ass.” “Caused you an old ass! How ridiculous! Why, you are not old!”

The Diamond Dyes always do more than they claim to do, and it will look like new.

LIVER DISEASES.

The usual symptoms of a disordered liver are loss of appetite, sometimes nausea and vomiting, a vague and indistinct uneasiness in the epigastric and hypochondriac regions, a tendency to constipation, turred tongue, disordered vision, indolent discharges, great and apparently causeless depression of spirits, and a disposition to gloomy views on all subjects. These symptoms, if not speedily grappled with, will result in more serious consequences to the whole system, producing biliousness, jaundice, bilious colic, or gall-stones, fatty liver, waxey liver, nutmeg liver, dropsy, hydatids, malignant affections, &c.

KIDNEY-WORT

goes to the root of all these evils, and by the aid of certain virtues inherent in it, throws off the morbid poisons that have been the cause of ill, infuses new life into every organ, and the result “devoutly hoped for”—health—ensues.

TOWN D. NIVERS, Southfield, Ohio, says:
“After suffering from indigestion, and suffering much with rheumatism, and urinary trouble, I was induced to try Kidney-Wort. The change is great. I am a living advocate of its virtues.”

Geo. W. HERRINGTON, New Haven, Conn., says:
“I have been troubled with torpidity of the liver and with deranged stomach, bowels and kidneys. I had read of the value of your Kidney-Wort, but thought I would consult my doctor before taking it. To my surprise he told me it was as good a medicine as I could desire. By its use I was completely restored to health.”

E. P. CARTER, Genl Agent, Mutual Benefit Life Insurance Co., Troy, N. Y., says:
“I have been for four years I did not know what it was to have a good night’s rest, or to enjoy a good meal of victuals. I had terrible headaches and pains in my kidneys, my urine was so thick that it was passed with difficulty, pain in my limbs so that I was forced to crawl of walk. I tried several doctors in the city, but without benefit. My weight became reduced to one hundred and twenty pounds. I purchased a bottle of Kidney-Wort and began taking it. Within one week I was able to eat a good hearty meal without being distressed. I took in all four of the bottles, my weight began to increase and at present I weigh one hundred and fifty pounds. The headache and pain in my back have left me, and I am in as good health as any one could wish. I have had one dollar for medical services for the past eighteen months.”

A girl ran away from home and the father advertised her as a “fair aged girl, and if returned should blow out.”

A foolish woman, went on a shander, went into a neighbor’s and exclaimed, as she there herself into a chair, “Gosh! the world has turned upside down, and the other side is up!” “How do you know how the other side is up?” “I know your fault,” quietly responded the neighbor.

You can color over that dress, and it will look like new.

Buying Shop-Worn Goods.

AT HALP PRICE
EVERY merchant recommends that the article of less goods that become shop-worn or for some other reason have to be sold at low prices. Ladies everywhere are beginning to understand how easy it is to make these articles as good as new by re-coloring them with **DIX-KORD DYE**. Money can be saved by buying dresses, frocks, gowns, and other goods, which have been worn, and re-coloring them with **DIX-KORD DYE**. Merchants are obliged to sell such articles for one-fourth or one-half their value, and for a re-coloring expense they can be made as good as high goods. While cotton stockings can be bought very cheap and colored equal to the high-priced ones.

To Color Sheep-Skin Mats.

Stretch the skin side upon a flat board, draw it out tightly as possible, and fast it down firmly. It can then be turned inside down, and by proper appliances lowered just far enough into the bath so the skin will not come into contact with the water. Two gallons of each color will color two coverings, allowing each color to dip into the dye bath, moving gently until all parts are colored alike.

Coloring Leather.

Leather can be easily colored by applying a solution of the dye with a brush of sponge. In a large way the skins are placed back to back and then dipped into the dye bath.

Laundry Bluing.

To make a quart of the best Laundry Bluing, dissolve one package Blue for Cotton (the dye only), in a quart of hot water, and bottle. Use in the same way as ordinary bluing. The dye is much superior to a fraction of the price.

"Chas. Belle" wants to know what a young man won't do when he's in love. Well, he won't eat onion.
 "Fath" said Pat, "and do ye know that I think not more than half the lies they tell about the fish are true?"
 Young Housewife:—"What miserable little objects again! You really must tell them, I dare, to let the hens sit on them a little longer."

Every letter of the alphabet is contained in Aquadon's Compound.
 The youth who weds and wins a girl at the risk will find it but a few steps from roller skates to rolling-pin.
 The beaver, Cardinal Red, Old Gold, Navy Blue, Seal Brown Diamond Dyes Give perfect results. Any fashionable colors, 10 cents.

SPRING DISEASES.

Almost everyone, no matter how well ordinarily, needs a thorough course of physic in the spring to cleanse the system of the accumulated humors caused by the indoor life of the winter months; no other remedy is so good as

KIDNEY-WORT

for this purpose. It is a mild but efficient cathartic, and *ceding at the same time* on the liver, *bovis*, and *kidneys*. It relieves all these organs and enables them to perform their duties perfectly; *headaches, dizziness, jaundice*, and all such spring diseases yield at once to its curative power.

Joseph Morley, Glenwood, N. Y., says: "Every spring for five years I have had serious trouble with my kidneys. I have used the book and kidney pills, but they had no effect. I had no money for work or business. At last I tried Kidney-Wort and can heartily recommend it as a safe and sure remedy for such complaints as mine."

J. D. McDowell, Salamanca, N. Y., says: "We use Kidney-Wort in our family as a spring and fall medicine. It has cured constipation and other diseases."

Washington & Sayre, Cherry Creek, N. Y., say: "We are selling a large quantity of your Kidney-Wort with never failing food results. We have taken it ourselves, and it is the only preparation for the liver and kidneys we can recommend."

L. F. Gow & Son, Bradford, Wis., say: "We have known of Kidney-Wort for almost thirty years and during the last six have sold a large quantity of Kidney-Wort and in every instance it has given entire satisfaction."

C. B. Riggs, East Smithfield, Bradford Co., Pa., says: "Kidney-Wort is all it is recommended for. I have used it and know personally."

Stevens & St. Joseph, Hesperia, Kansas City, Mo., say: "We are continually using your Kidney-Wort. It is invaluable to us, and we can and do highly recommend it."

R. H. Braxley, M. D., Jackson, D. T., says: "I have used your Kidney-Wort with good success in quite a number of cases."

An engraver made this mistake:—"Mr. and Mrs. _____ respectfully requests your presence at the marriage of their daughter."

What are the best stories? The long ones are—when you are telling them, the long ones are—when you are listening, the short ones.

"Doctor, I fancy, some how, I've got a touch of the gout." "Fancy any boy! Huh! If you had, you wouldn't fancy: you'd know."

Gentleman:—"So you play the piano, my little girl?" "Yes, sir." "And can you play any other instrument?" "No, sir, but I expect to play the *lisp*, when I do happen."

MOON'S PHASES—New Moon, 4th, 9:31 mo.; First Quarter, 11th, 7:44 eve.; Full Moon, 18th, 9:26 mo.; Last Quarter, 26th, 6:15 mo.

Keep the dates of putting in your crops, and of doing other important work.

Published by G. G. Green, Lancaster.

**oring Everlasting Flowers,
Grasses, Mosses, etc.**

Dip into a hot-water bath made quite strong with the dye and dry carefully. Some flowers, etc., are so waxy they will not take the dye from water. For such a weak solution of gamboge and yellow in dark brandy will do the trick. From these colored flowers, lovely and attractive during the dewy winter months.

School Teachers, Attention!

Lessons in colors are given in many primary schools, and ought to be given in all. There is no necessity of buying expensive chromo-litho charts, which in small sum investments will give eyes and one or two cheap specimens as an ample facilities for producing interesting articles made in the increased value. No child can get an adequate idea of green, yellow, or any color, unless they see it in nature. You can get a color before him and you have him to find the color in the long lesson that will never need to be repeated. Teachers will readily see the many uses of the dyes in mixture of colors, complementary colors, production of different shades, etc.

They can also be used to great advantage in advanced classes in the study of Arithmetic, Geography, Natural Philosophy. Send stamp for pamphlet entitled "Hints to Teachers," which contains full instructions, for use, to Wells, Richardson & Co., Burlington, Vt.

Coloring Baskets, etc.

Coloring fancy baskets can be very easily done with Diamant dye. They may either be dipped in the dye bath, or the dye dissolved in alcohol and applied with a brush. For delicate baskets the latter is the best method. Use the dye sparingly for if you get too much it will give a dull, heavy look. Any object of wood or paper, that can be dyed in the same manner as ordinary home-fish netles, etc., take the dye readily from the bath.

"Arden," she said sweetly, as he kissed her forehead. "He's adieu'd, ain't he?" sung out her little brother, as he vanished upstairs.

A girl who could spell Deuteronomy, And had studied domestic economy, Went to skate on the rink, And to skate as a while She ran down to study astronomy.

The most noted diary authorities recommend Wells, Richardson & Co.'s Improved Bacter

RHEUMATISM.

This disease, terrible in its acute, and long enduring in its chronic form, is one of the most baneful diseases that flesh is heir to. It is a disease that will not bear neglect, for if not treated promptly will remain till death, to pain, harass, and make life miserable. It is also a constitutional and hereditary. Because of an inactive condition of the kidneys and bowels the blood is not purified and an acid poison is formed and deposited in the muscles and joints, and this causes the inflammation and increases suffering. Some of its effects are fatal, especially when it attacks the heart, which often causes sudden death. What a blessing that a remedy has been found that counteracts the poison and eliminates it from the system.

KIDNEY-WORT

It has been found to do so thoroughly, and no better remedy can be found than it; for it promptly alleviates pain, and banishes the disease from the system.

U. J. BURTON, Marion, Ohio, says: "I was attacked with rheumatism and urinary trouble for some time. I made a trial of Kidney-Wort, and before one package was taken, I was well."

JOSEPH H. HORTON, Ripon, Wis., says: "One year ago I was laid up with rheumatism, and kidney troubles in a most fearful form, so I could not work. I used a number of remedies without relief. I was advised to try Kidney-Wort. This medicine gave me relief, and now do a good day's work on the farm."

H. T. MUIR, Independence, Kan., says: "I was afflicted with inflammatory rheumatism for fifteen years, used many remedies but found no relief until I tried Kidney-Wort, which has entirely relieved me. My wife has also used it with great benefit."

F. S. COLEMAN, Ripon, Wis., says: "I have had rheumatism for two years, treated to benefit from doctors or 'bottle dos,' seeing Kidney-Wort advertised I bought a package and at once found relief. I could not get along without it."

M. A. DAVY, Vassalboro, Maine, says: "I was very lame with rheumatism, could hardly walk; my joints swelled badly; I could with difficulty turn in bed. I was induced to try a bottle of your Kidney-Wort, and I am now able to attend to my regular duties."

"Oh, I do so detest the sea," she pined, "If you only had a yacht, Astartea dear, I have no yacht, Wilhelmine!" he sighed, "but I can give you a little steam!" And then it rounded up if a cork had blown out of a bottle.

You may talk of the signs of the weather, Of the coming days you may sing, But sitting down on a red-hot stove Is a sign of an early spring.

Pat down how much butter you make weekly, and continue to use the Improved Butter Collector.

Wells, Richardson & Co., Burlington, Vt.

ing Photographs, Engravings, Maps, etc.

The beautiful art of coloring photographs, etc., with colors, is the latest and most interesting work, and is the rage of the moment. The very best colors can be made from DIAMOND DYES at one-fourth the expense of those sold under other names, as "Royal Art," etc. Full directions for making the colors and complete instructions so that any person can do good work without taking lessons, sent to any address on receipt of a stamp. A finely colored cabinet photograph as sample, sent for ten cents, and uncolored photographs furnished at 75 cents a dozen.

The Diamond Dyes, — Gold, Silver, Copper and Bronze, — can often be used to good advantage in connection with this work. Engravings or Pictures without glazed surfaces, need no preparation, but caution should be used in applying the colors, to use but little liquid.

Children's Books can be decorated in Kate Greenway style, with beautiful effect. Maps or Sketches can be drawn in black, and the colors can be put on with a drawing without changing the black. School children will be greatly interested in coloring their drawings in this way.

Kalsomining.

Kalsomine can be beautifully tinted with the DIAMOND DYES, and at a trifling expense. Out-packs for tins ten to fifteen pounds, hand some shades for walls. The favorite colors are Yellow, Orange, Vermilion, Slate, Magenta, Chromium, Blauweck, Violet, Green, Blue for Cotton. The best blue shades can be made by mixing the Green and Blue for Cotton. To make good Kalsomine dissolve six-ounce pound good glue to each ten pounds of Paris White. Mix with ammonia water to get to the right consistency. It is better dissolved in water, and necessary to get the color clear. For a preserve in a package of dry should be used with from one to three pounds of Kalsomine.

An ounce of Keen-Your-shoulders, it better than a pound of explanation after you have read it.

A young lady told her mamma that all the ladies wear white pants, then her little brother added, "and so do their fathers and their cousins and their uncles." "That is an excellent," asked a Sunday-school teacher of her class. "The wife of an apostle," replied the young boy.

CONSTIPATION.

Constipation is also often attended, even in its occasional attacks, with dizziness, depression of spirits, drowsiness, irritability of temper, vertigo, headache, flushing of the face, pains in the loins and limbs, palpitation, breathlessness, turned tongue, gastric derangements, and various disorders in the urinary and genitival organs. When habitual, in addition to these, there is piles, cold, congestion of the bowels and inflammation, dyspepsia, sick headache, foul breath, apoplexy, epilepsy, paralysis, hysteria, melancholy, and hypochondriasis. All of these have constipation as their source.

KIDNEY-WORT.

Is a perfect remedy for all forms of constipation. Restoring the natural condition of the secretory glands of the intestines, the proper amount of mucous fluids are mixed with the excretory matter and thus the dry and hard stools which produce such suffering is prevented. Their increase more vigorous peristaltic action, and so more frequent and natural movements.

J. D. McDONNELL, St. Louis, Mo., N. Y. says: "I have been troubled with kidney difficulty, constipation and pain. Doctors and their medicines did no good. Kidney-Wort made a new man of me."

A. B. THRESEYER, Cincinnati, O., says: "Five years ago I commenced taking Kidney-Wort for constipation. By its use have been cured of both complaints."

E. E. GARNER, Troy, N. Y., says: "Constipation has troubled me to that extent that it would destroy me. I took Kidney-Wort and was cured, and can now laughably say, 'it is one of the greatest remedies of the age.'"

Mr. S. A. COOPER, No. 7 Edinburgh St., Boston, Mass., says: "I have been afflicted with constipation for nearly forty years and some bad forms of urinary trouble. I have employed many physicians with little benefit. Also have used a variety of the most popular kidney and liver remedies without any lasting results. The use of Kidney-Wort has nearly restored a healthy condition of both liver and kidneys and has with it effected a cure of my dyspepsia, which was distressing, and a state of mental despondency which my physicians said would end in insanity."

The difference between a woman and an umbrella, that you can shut up an umbrella, but you can't shut up a woman. "Flow one thing brings up another," said his lady, in pleasing retrospection. "Xenophon roared gibes," an epigram, for instance. "She left the table in a huff." Answer me this question, darling: Only this and nothing more: I beseech you, tell me truth! When we're married will you snore?

of Carpet Bags, the Diamond Dyes are better and cheaper than any other dye-stuffs.

ing Feathers, etc.

Feathers readily take the most beautiful colors from DIAMOND DYES. Clean the feather by soaking in strong soap-suds till clean in water, then draw gently between the thumb and forefinger a number of warm and these in warm water; dye up to the shade required, rinse in cold water, and press between two sheets of paper with the face of the cloth to the face of the cloth. Now hold the feather over a gentle fire, shaking slightly, four sprays of the feather and drawing these together between the thumb and the back of the fingers, and so on until it is finished. Old feathers can be restored and made to look almost new. To color feathers a good black and red persons to try it. Have birds can apply a strong solution of the dye with a brush or sponge. A number of the dyes can be made a handsome display of color and ornament, and it never fails to draw a crowd. For this purpose it sometimes works better to dissolve the dyes in alcohol, especially if the feathers seem oily.

Odd Colors.

Many colors are called different names by different persons, and different shades of the same color are known by different names. Below may be made a list of colors and directions by which they can be made.

Brown—A combination of Bismarck and Blue.

Dark Navy Blue—A dark Navy Blue.

Light Brown—Bismarck Brown, or a light shade of the Brown.

Orange—A light shade of Orange.

Yellow—A light shade of Orange.

Green—Can be made from Slate or Dark, or by using a weak Black dye.

Grass Green—A light shade of Dark Green.

Lavender—Mauve—Light shades of Violet.

Albino—A light shade of Purple or Old Gold, or Olive.

Black—A dark, heavy shade of Black, or a combination of Old Gold and Dark Brown.

Dark Blue—Add a little Green dye to the Dark Blue.

Peacock Green—Add a little Light Blue dye to the Green.

Teal—A combination of Green and Blue.

Red—A heavy shade of Magenta.

Scarlet—A heavy shade of Magenta.

Light Red—A light shade of Plum.

White—A combination of Orange and Green.

Steel—Use a weak Black dye.

A young politician explained the atterred condition of his trousers to his father by stating that he was sitting under an apple tree enjoying himself, when a farmer's dog came along and confided his seat.

Just directions for every one are given with the Diamond Dyes for Grasses, Eggs, Ivory, Hair, &c.

PILLS.

This is one of the most annoying and most painful of diseases. It is brought on by weakness of the lower part of the bowels, often induced and always aggravated by constipation. It may sometimes be temporarily relieved by external applications, but never cured. It must be treated by a remedy that restores to health the intestinal system, and such a remedy is

KIDNEY-WORT.

G. J. VANDERPOOL, Milwaukee, Wis., says: "I suffered with kidney disease with kidney difficulty and pain. No other remedy gave any permanent relief. I was urged to try Kidney-Wort and before the first package or four packages I began to feel better. After using three or four packages I have recovered. I would recommend it to all who suffer from the pills."

ABRAHAM MURSE, Madison, Iowa, says: "I have been afflicted with the pills for 20 years. My case was considered hopeless. As a last resort used Kidney-Wort which completely restored me."

ALBERT M. ROBINSON, Francisco, Gibson Co., Ind., says: "I have had piles for a close thirty years, have used many remedies and was treated by a leading physician to the point with little or no relief. I was advised to try Kidney-Wort. The first dose stopped the bleeding and relieved me. Every day I now take one and feel two packages and feel that I am completely cured."

W. M. WILKINSON, Augusta, Ga., says: "A friend of mine was afflicted for ten years with piles could get no relief from doctor or medicine. He was induced to make a trial of Kidney-Wort and is now cured by its use. I know of another case of cure by the same means."

KATE MATTHEWS, Odessa, La. Fayette Co., Mo., says: "I have been an invalid for 25 years. In that time have been treated by 19 different doctors. Have had trouble with the kidneys for most of my life. Have been confined to the bed most of the time for the last two years with a high back, scalding and stinging urine. Four bottles of Kidney-Wort changed the character of the urine, stopped the pain, settled me, and I continued use until such as my appetite and cured the back-ache and piles."

MARSH NOE, Chief Fire Department, Davenport, Iowa, says: "I have been troubled with kidney disease for a great many years and tried many remedies, but found nothing that gave me relief, until I began the use of Kidney-Wort."

What is the difference between a general and a particular? A general will work for every one or eight days without drinking, while a particular will drink for seven or eight days without working.

Just directions for every one are given with the Diamond Dyes for Grasses, Eggs, Ivory, Hair, &c.

Almanac for July, 1886.

Key one-time and a package of Diamond Dyes of the Day.

SHOE DRESSING.

A liquid dressing for ladies' shoes, superior to any sold in bottles, can be easily and cheaply made as follows: Buy the oil of neat castoree one ounce of Borax one ounce of Gum Shellac in a part of hot water. Measure the water, and when the Borax is wholly dissolved strain. While still hot, dissolve two packages of Diamond Starch in the liquid, and add one-half ounce of (1/2) of the. The vessel used should be twice the capacity of the quantity made, and care taken to prevent boiling over. Apply to shoes with a swab or cloth.

Making Ink.

Writing Ink.—Goring Ink, Rubbing Ink, Stamp Ink, Shading Ink, Stoning Ink, Marking Ink, Copying Ink, of any color, and of the best quality, can be made by simply dissolving a package of Goring's Dyes in the color wanted. They stand better than any ink sold in small bottles. Stir well and pour on a quart of water.

Positive Penmanship Ink.
Purple Ink makes Purple Ink.
Violet Ink makes Violet Ink.
Light Blue Ink makes Blue Ink.
Green Dye makes Green Ink.

Writing Ink.—Moisten the dye with a little cold water, then add a pint of boiling water; stir well, dissolve, and your ink is ready for use. For Violet and Purple, use a quart of water.

Copying Ink.—Use but half the quantity of water, and add two ounces of rock-candy.

Stamping Ink.—(For Indian Stamps).—Dissolve the powder in four ounces of Glycerine.

Marking Ink.—Dissolve a package in from one-half pint to one quart of water, according to strength needed.

Stoning Ink.—The same as for Marking Ink. To use, put a sponge in a cup and saturate with the ink. Then use with a brush.

Colored Lacquers.

Beautiful colored Lacquers or Varnishes can be made from the fundamental use of simply dissolving the color in alcohol in the way indicated in White Shellac Varnish in this way. Varnish some-colored coatings, perfectly transparent, can be put on any object wanted, whether of metal, glass, wood or iron.

We recommend for this work the cotton colors without the mordant.

Don't be proud young man. Adam and Eve were among your ancestors, and they couldn't show a marriage certificate to save their reputation.

Reported by one of the elements of art. This is why a man always laughs (?) whenever his flower is in a jar.

Nothing in this world is so hard to get as a girl. It is the amount invested that counts. A man with a girl to give it his teeth well.

How few men know how to make weakly and contagious to use the Improved Tartar of color.

MALARIA.

One of the most common sources of disease in this country is the state of the system following the inhalation of noxious, deadly malarial. This dread, unseen, almost omnipresent and omnipotent poison, the parent of fever and ague, even though it may not always produce that particular disease, always gives to the system a condition of blood highly favorable to the entrance of other diseases.

KIDNEY-WORT

Is the most powerful enemy to malaria extent. Its streptococcus the system neutralizes the poison, and renders it harmless and inoperative. In malarial districts it amounts almost to a cure to be without it. Remember constant vigilance is the price of safety. Make free use of Kidney-Wort and you need have no fear of ague, chills, slow fevers, and that lassitude and debility which always accompanies attacks of malaria.

Henry Warr, Lieut. Col. 69 Reg. N. G., S. N. Y., New York City, says:
"I have suffered perhaps as no other man has suffered, from liver disease, brought on by malaria. Last year I went to Europe to try and better it, but came back worse. I came to the conclusion to try Kidney-Wort, and I want to tell all sufferers from liver diseases that the last three weeks I have enjoyed such good health as I have not had in many, many years."

D. L. Cowdry, Esq., County Clerk of Walworth Co., Johnson, Wis., says:
"Over one year ago, my kidneys and liver became affected from liver complaint, and my flesh. This became complicated with malaria. I took Kidney-Wort and from the first began to get better. I soon could take a good walk. The pain in the back and kidneys left me and I am well again. I consider it the best remedy for kidney complaints, constipation, dyspepsia or Rheumatism."

Edward F. Horns, Farmer, N. Y., says:
"I had typhoid fever which left me quite low and with very weak kidneys. In January of the same year I slipped while climbing a very high snow at my door. This caused me to get very tight, and I could not get on my feet. I tried many remedies, but did not get any better. I then got a bottle of Kidney-Wort and from the first day I could see my kidneys were and from the first day I could see I improved. It cured me from constipation and got me on my feet."

"Will somebody please tell what is the nature of soda?" I finally about to put cent in excess of the day rate. All depends on the drugist you patronize.

"Will you admit you are lied?" you'd the answer in a week's light. "No sir," replied the under one, "I ain't lied, but I'm satisfied."

"I had no time to spin the chicken," proclaimed a landlady. "Never mind, madam. Its tough enough as it is," replied the boarder.

MOON'S PHASES.—First Quarter, Feb. 26 mo.; Full Moon, 38th, 6:30 mo.; Last Quarter, 28th, 0:56 mo.; New Moon, 27th, 11:50 mo.

Almanac Patented April 11, 1882.
Printed by G. & C. Green, Plattsburgh, N. Y.

Ribbons, Neckties, etc.

Coloring Draperies, Covers, etc.

Articles made of real hair fade badly after a few seasons' use. It is not great value to ladies to know that these can be made to exactly match any darker shade, by carefully treating them with DIAMOND BLACK DYE.

Striches of any article made of hair should be washed with soap and water, to remove grease, then be dipped in a weak dye, but made with the Black Dye. It takes but a moment to make hair two or three shades darker. When dyed, wash in weak soap-suds, rinse, dry by the gentle heat, and dress with a little oil. The Brown Dye is not suitable for hair. While hair of any kind can be colored any of the bright or dark colors.

Coloring Hairs.

Articles made of real hair fade badly after a few seasons' use. It is not great value to ladies to know that these can be made to exactly match any darker shade, by carefully treating them with DIAMOND BLACK DYE.

Striches of any article made of hair should be washed with soap and water, to remove grease, then be dipped in a weak dye, but made with the Black Dye. It takes but a moment to make hair two or three shades darker. When dyed, wash in weak soap-suds, rinse, dry by the gentle heat, and dress with a little oil. The Brown Dye is not suitable for hair. While hair of any kind can be colored any of the bright or dark colors.

Colored Crayons.

Colored crayons for school use can easily be made from the cheap white crayons. Use the *softest* crayon. Place as much as you need in the cup and pour on water to cover them. Let it stand a short time for further use. Place the wet crayons on a white paper. They will be kept warm about twelve hours. A large number of colors may be made in the same way.

Art-Work on Push.

Fancy conditions, filices, mats, etc., can be made of white plush, and in this can be beautifully finished and decorated by applying carefully solutions of various dyes. Black shades and wash-water colors can be made by application of a solution of which scotchies the delicate plush and gives very novel results.

It is golden," says the proverb. It may be gilt. It may be as true as steel, but then you will be too highly tempered. It will not hold in the world, but will be a bad management.

WHAT IS SAID OF

KIDNEY-WORT,

By an Old and Respected Physician,

"A REGULAR" OF THE OLD SCHOOL.

MONROE, VT., June 1st, 1882.

Gentlemen:

I have always been opposed to the use of patent medicines, as I am of the opinion that more harm than good is done by their indiscriminate use. Knowing of some remarkable cures performed by Kidney-Wort, I feel it but just that the public should know of them. I was induced to use it in my practice, by positive evidence of its virtues, and have done so to a considerable extent for the past two years.

One of the first cures was that of Mrs. A., who had suffered for years from an obstinate kidney trouble, complicated with inflammation and rheumatic difficulty. There was an inflammatory condition of the organs, which caused much pain and often severe suffering.

I had prescribed previously all the remedies usually employed in such cases, but without benefit. I procured Kidney-Wort for her and directed it to be prepared and taken according to directions; it relieved the pain and suffering almost immediately and gave in a favorable turn to all the symptoms.

Her recovery progressed rapidly and in a comparatively short time I was able to pronounce her cured. She has ever since been stronger and healthier than for years before, in which I could detail a score of more of other cases in which I have used it with the same marked results. If I had time and space, I have been in my various family remedies, it has been in every instance, remedying her more decided in its effect than any other remedy employed.

It is a safe and reliable remedy, and the other medicinal properties slow themselves in two to four hours, while as a laxative and cathartic it produces the happiest results, relieving the bowels speedily and without disagreeable effects. Its action is prompt and the effect is lasting. Being curative and tonic, it restores a condition of health and regular action, which other cathartics usually fail to do.

This spring I found that through a close attention to my professional duties I had become worn and was in need of a drastic and cathartic myself. I at once took a few doses of Kidney-Wort and found it to operate equally well in my case.

Very sincerely yours,

PHILIP C. BAILLOU, M.D.

"Johnnie," said the sister, "you must not commence a quarrel; let the other boy begin."

"Well," exclaimed the little hero, "but if I wait for the other boy to begin, I'm afraid there won't be any fight."

Hints for Art Works.

The Diamond Paste for all decorative or fancy work is unsurpassed. They are sold on iron chests in packages, and are equal in quantity and quality to the five-cent packages of other makers. They can be used for gilding silver, for coloring glass, for coloring wood, for coloring paper, for coloring stone, for coloring marble, for coloring metal, for coloring leather, for coloring paper, for coloring wood, for coloring stone, for coloring marble, for coloring metal, for coloring leather, etc., etc.

There is scarcely a household article of furniture and many fashionable decorations are a more than doubled in value by it. There is no kind of ornamental work more splendid to handle than this, and more easily executed.

Lustral Painting.

The cheapest and best paint to use in this art, and so popular, are the Diamond and Shiloh Oil, Shiloh Copiers, and Bronze. These are the best of the kind, and they can be got at any art store.

Bronzing Chandeliers, Lamps, Ebonying Furniture, etc.

In nearly every home there are brass fixtures or lamps that have become decidedly the worse for wear. These can be readily made as good as new by a certain application of the Diamond Paste or Copiers Paste. Anyone who takes the proper application will find to make use of them for bronzeing furniture or any wooden ornaments, or for coloring leather or any material will convey the Diamond Artists' Black, prepared in accordance with our directions.

Repairing Wall Paper.

Nothing is more distressing to the eyes of a housekeeper than to see places where the wall paper has accidentally been knotted off, or where it has become soiled or stained. A good paper of Diamond Gold Paste will cover the spots of such spots, and put off for a long time the necessity of putting on new paper. It is very easily and quickly done, and the eye can seldom detect the place.

The Heavy, watery, croaky,

Will have to do some-thing! Perhaps he'll go to heaven And walk the pearly way! Hell's view the shining pavements With loomy eyes, and And dance the head and snout; "They're so extravagant!"

RHEUMATISM AND URINARY TROUBLE CURED BY KIDNEY-WORT.

MARION, OHIO, May 21, 1884.

WELLS & RICHARDSON CO.,

Gentlemen:—I can say that I believe your Kidney-Wort to be a valuable remedy, and I wish you to know what it has done for me. I was afflicted with rheumatism and urinary trouble for some time. The rheumatism settled in my back and hip and gave me great pain. My kidneys were disordered and gave me much trouble. Finally I made a list of Kidney-Wort, and by the time I had taken one package I was well. It gave me a good appetite and strengthened me right up. I think it is wonderful that so severe a case as mine should yield so completely in so short a time. I shall take pleasure in recommending Kidney-Wort to my friends.

Yours truly,
W. J. BEXTON.

KIDNEY DISEASE WITH TERRIBLE SUFFERING CURED.

BEXTON HARBOR, MICH., May 25, 1884.

WELLS & RICHARDSON CO.,

Gentlemen:—I wish to let you know what benefit I have received from the use of your remedy, Kidney-Wort. For six years I had such a terrible headache that I could not lay on my back at night on account of the pain in my back and kidneys. I employed a number of doctors, but received no benefit from them whatever. One would say to me, "try opium, and another would say to give to my work, and so on, and so on, until I could do nothing. In the *Philadelphia Ledger* I read your advertisement about Kidney-Wort, and I went out and bought a bottle. After taking it a few days, my head cleared up, and I felt a good deal better. I have recommended it to my friends, and it has done much good. There are a great many people around here troubled with their kidneys, and the doctors cannot do them any good. If they would take Kidney-Wort I am sure they would be cured.

Very truly yours,
FREDERICK HENZLER.

TRODA'S GREENS, MARYVILLE, N. Y., says:—"I have had to get up many times at night, and my urine was high colored with an unusual deposit. One box of your Kidney-Wort cured me."

JOHN A. ALBERT, J. P., Nutt, Lewis Co., Tenn., says:—"For ten years I have been afflicted with pain in the back, the result of a kidney trouble. I tried several remedies from which I derived very little benefit. It has given Kidney-Wort a trial, and I have received more benefit from it than from all others."

"What's eyes, this morning?" "Eyes of course," says the center "Well, it's the center of you were children."

"Here, you young rascal, give an account of yourself. Where have you been?" "At the circus, where I was a boy." "So, but what did you do?" "I was a boy, but what did I do?"

Dresses, Coats, Gowns, Wrappers and all
 Garments; Shirts, Hoods, Scarfs,
 Yarn, Stockings, Carpet Rugs,
 Ribbons, Trunks, Beer-
 tasting Trowsers, Masses,
 Grasses,
 Basket Work, Wood, Bone, Ivory, Basket
 Eggs, Sheep-Skin Mats, Hats,
 Leather, etc., etc.

ONLY 10 CENTS

For sufficient dye to color from one to four
 pounds of goods, according to color and shade
 wanted.
 Remember these are the only pure, harm-
 less, unadulterated Dyes on the market. Always
 ask for and insist on having DIAMOND DYES.

LIST OF COLORS:

Yellow,
 Saffron,
 Marigold,
 Cardinal Red,
 Dark Green,
 Dark Blue,
 Black,
 Eosin (Pink),
 Bismarck,
 Old Gold,
 Orange,
 Scarlet,
 Saffron,
 Cardinal, for Cotton,
 Green, for Cotton.

DIAMOND PAINTS.

GOLD PAINT, SILVER PAINT, COPPER PAINT, BRONZE PAINT, ARTIST'S BLACK.

For gilding, silvering, or bronzing, Fancy
 Baskets, Frames, Emblems, Medals, Fur-
 niture, Household Ornaments, Statuettes,
 etc.; Repairing Gold Frames and all
 other Gilded Work, etc.

DIRECTIONS FOR USING THE + DIAMOND + PAINTS.

Prepare the liquid for mixing the Bronze Paint
 by adding half an ounce of Varnish to an
 ounce of Spirits of Turpentine. Keep in a well-
 corked vial.
 Put a small quantity of the metallic powder
 into a saucer or other shallow dish, and add small
 quantities of the liquid as well render it rather less than
 than common paint, give a slight stirring with
 the brush, and it will be fit for use. If a large
 quantity is wanted, mix the metallic powder in
 small quantities, say about 2 teaspoon each,
 and a slight motion given to the brush, in
 time a fresh supply is taken with the brush.
 Never mix more than is required for the work
 in hand.

Apply the paint with a camel-hair brush.
 Many of the ladies' papers in the last year
 have contained articles in praise of the Diamond
 Paints for a great variety of uses in household
 ornamentation. They are so clean and so easily
 applied that it is a pleasure to use them.
 Fancy Baskets can be painted with any shade
 desired, or with a combination.

Old Wicker Chairs can be stained with ma-
 hogany color made from Diamond Dyes, and if
 some parts of them are gilded with Diamond
 Paints it will make them very handsome.
 Grasses, Grains, Tapers, Buttercups, etc.,
 can be gilt with the Paints, and when dried
 mounted are exceedingly rich and handsome.
 Furniture, Frames, Ornaments, and all
 objects wherever a little especial gilding will
 improve the appearance. Diamond Paints are
 very useful. A writer in *The Christian* (1879)
 gives a very interesting account of her success
 in using these paints for such purposes.
 Many other uses will occur to the ingenious
 mind and every one who appreciates the beauties
 of painting will be found to give perfect satisfaction.

**PRICE, 10 CENTS.

THE "NEST JOHN'S DISCOVERY."

John Gilpin was a citizen
Of honor and renown,
A hearty, honest, well-knighman,
In a New England town.

Week in, week out, John worked as hard
As any man could do,
But, somehow, both ends wouldn't meet,
Which put him in a stew.

His wife would ask a bonnet nice,
His youngsters cry for shoes,
It fairly broke John's honest heart
To think he must refuse.

He had a bonny dairy lass,
Who had no lack of beaux,
But would not see her "company"
For want of decent clothes.

John turned it over in his mind
From sunset till sunrise,
When all at once a light broke in—
He thought of Diamond Dyes.

"Dear wife," he cried, "no longer fret,
Our troubles are all over,
And you can dress in gay attire
As you ne'er dressed before.

"Your ribbons, feathers, dresses, all
Will make as good as new,
For 'Diamond Dyes' will make them look
Lustrous with brilliant hue.

"And everything a woman wears,
You'll see with glad surprise
That shabby, faded, dingy, worn,
Grow fresh with 'Diamond Dyes'."

And soon a mighty change was made,
A happy man was he,
For fairly out to church he fair
His wife tripped merrily.

His bonnie lassie also made
Quick response of her beauty,
And dozens came with heart and hand
Most humbly to "propose."

"God save our country, save us all!"
John cried—"and praise rise
To him that first invented these
Bright brilliant 'Diamond Dyes'!"

Set down in the book for one more of the best things when the ten-cent Diamond Dyes will make them good as new. They are perfect.

WELLS, RICHARDSON & CO.

LACTATED FOOD

SUGAR OF MILK

(Lactose)

(Saccharum Lactis)

FOR INFANTS AND INVALIDS.

Is the basis of this Valuable Food.

Medical authorities agree as to the importance of this article as an addition to the diet of infants deprived of mother's milk, and for all invalids with enfeebled digestion. It has special value in irritation of the stomach and bowels as it overcomes inflammatory disposition, and relieves and corrects constipation. It is the most important constituent of mother's milk, and the curds formed by the acids of the stomach with it in Lactated Food are the same in character as those formed with mother's milk. It yields the necessary nutriment for the support of the respiratory organs, and in this way also is a very important addition.

Lactated Food surpasses all others in the following qualities:
Ease of digestion and perfect assimilation of each constituent.
Great nutritive value.
Close resemblance, in composition and effect, to mother's milk.
Corrective influence in all cases of irritability of the stomach and bowels.
Entire absence of cane sugar.
Character of the coagulum formed with the fluids of the stomach—light and friable—unlike the hard conglomeration formed by cow's milk.

The remarkable results thus far obtained from Lactated Food should induce every physician to prescribe it.
It is certainly a very important addition to the resources of the profession, both for infants and in cases of enfeebled digestion in adults, whether chronic or the effect of acute disease.

GREAT SUCCESS

Has followed the use of this Food, in a wide variety of cases. It has proved to far surpass all other artificial foods, both in cases of infants deprived of their natural nutriment, and in a large number of cases of enfeebled digestion in adults—whether chronic or caused by acute disease. The reason of this superiority can be easily understood. The composition of Lactated Food is such that it yields a large amount of the most easily assimilated nutriment, and at the same time assists the feeble stomach in the digestive process.

The three cereals of highest type, wheat, barley, and oats are used, and from each is obtained the constituent of special value—from the wheat is taken gluten, the best of all muscle-forming foods, and one that nourishes the tissues of the brain and nervous system. From oats is obtained the principle which, while giving strength and vigor to all parts, is especially a fat-producing food. From barley we get the very important digestive agent, diastase, which is produced in the grain by the process of mashing. This, while of itself an important food, is especially useful in being able to partially digest the other elements of the food, so that the most delicate stomachs can appropriate and assimilate them. Lastly, and of most importance, is the sugar of milk, which is the basis of Lactated Food. It is this which brings this food so closely to resemble mother's milk in composition and effect, increasing its nutritive value, giving aid to the respiratory organs, and aiding all tendency to irritation in the stomach or bowels.
